TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, SQL

Frontend: React, Next.js, React Native

Backend: Node.js, Express.js, Ruby on Rails, GraphQL, REST APIs

Databases & Tools: MongoDB, Kafka, GCP, Docker, Grafana, Splunk, Sanity CMS

EXPERIENCE

Hy-vee, Inc.

Bengaluru, Karnataka

Software Engineer

Sep 2023 – Present

- Led end-to-end development of **location-based** delivery & pickup flows, enabling real-time store discovery and reducing drop-offs in store selection by **20%**.
- Built a personalised deals system using customer order history and Eagle Eye APIs, enabling **AI-driven recommendations** and increasing **CTR by 15%** while reducing irrelevant offers.
- Built React interfaces with **optimistic UI updates**, reducing perceived latency by **30%** and improving user experience across high-traffic user journeys.
- Delivered personalization features (recipes, guides, health scores), increasing **session time by 10–12%** and improving overall content engagement among active users.
- Migrated CMS data from Umbraco to Sanity, boosting editorial efficiency and delivering **99% migration accuracy** for structured content.
- Improved application **accessibility** by implementing **screen reader support (ARIA)** and keyboard navigation flow with **WCAG standards**.

Cognizant India Pvt. Ltd.

Bengaluru, Karnataka

Associate Software Engineer

Jul 2022 – Aug 2023

- Integrated input Debouncing feature, reducing unnecessary API calls by **70%**, and significantly improving the overall system performance and user experience.
- Improved code quality by reducing code smells, increasing code coverage **from 62% to 97%**.
- Built configurable REST APIs from scratch in Node.js to support multiple clients through a single API.
- Introduced real-time Online Order Delivery Tracking, reducing support calls by **20%**.

Programmer Analyst

Jul 2021 – Jun 2022

- Enforced automation testing frameworks, reducing manual testing efforts by **50%**, improving overall testing efficiency.
- Created dashboards for 7+ microservices in Grafana which improved monitoring and greatly reduced time taken to identify issues.

EDUCATION

Jaypee Institute of Information Technology

Aug 2017 – Jun 2021

Bachelor of Technology in Electronics and Communication Engineering

Noida, Uttar Pradesh

PROJECTS

E-commerce Website | JavaScript, React, Redux, REST API, Node.js, Bootstrap

[LINK](#)

- Built an E-commerce application offering a variety of products for customers to choose from.
- Designed and developed core logic for authentication, shopping cart, and checkout workflows.
- Improved UI by adding responsive design elements for uniform experience across different devices.
- Utilized REST APIs to dynamically load and render data served by the backend server.

ACHIEVEMENTS

- Awarded Seasons Award (2024) and Best Employee Award (2025) at Hy-Vee for outstanding performance and impact.
- President - CyberShell Society at college.
